THE UNIVERSITY

WHERE TO WRITE

THE PLAN

Ohio University's new campuses are an outgrowth of the University's branches established more than 20 years ago. Recognizing that opportunities for higher education would be needed and deserved by more men and women than could be served by existing institutions, Ohio University pioneered in developing a new approach to the old problem of making higher education both accessible and worthwhile. The aim is not just to offer a full two-year curriculum to students beginning their college careers. The University considers it equally important to provide an atmosphere conducive to learning and self-discovery — not in the classroom alone, but also in the day-to-day happenings of campus life.

Our new campuses provide the student a place in which he can make an effective beginning. The treasured intimacy of the small college is preserved while the extensive resources of a major university are utilized. Faculty are appointed because they are qualified to teach. The libraries are designed for the beginning student. The latest science and language laboratory equipment supports the specific courses offered in the University's freshman and sophomore programs. Our students are helped to prepare for the completion of their baccalaureate degree.

A faculty adviser is available to each student on the new campuses. The student may begin a major program, but is not required to do so. He may take courses unrestricted by the requirements of a given major program, or he may declare a major and get started right away. Some students combine both approaches by beginning a major program their second year after exploring a variety of subjects during their freshman year.

Part of the academic plan does not involve the classroom. Student life is an important part of the scene. Students write their own newspapers, help govern themselves, and participate in theater productions, choral groups, student mixers, intramural athletics, clubs, and other activities. We offer our students a rich program of distinguished guest speakers, concerts, plays, movies, and art exhibits.

The aim of the plan, then, is to give the student a small, intimate campus within his reach, and then reach him. We know we cannot force students to learn if they have neither the talent nor the motive. For those who do, however, Ohio University and its new campuses provide an opportunity.

This brochure is aimed at answering your most immediate questions about our campuses. We welcome further inquiries.

Edward M. Penson, Ph.D.
Dean, Off-Campus Academic Programs
Ohio University, Athens, Ohio 45701

OHIO'S NEW CAMPUSES AND CENTERS

BELMONT COUNTY

First established in 1957 in Martins Ferry with an enrollment of 196, the Belmont County campus is now comprised of 360 acres, operates from a new building, Wilson Shannon Hall, and has an enrollment of approximately 1,000. The new Georgian-styled building is located near St. Clairsville in the scenic Belmont County area on Route 40. The new campus, under the direction of Mr. E. R. Bovenizer, opened to students in February of 1967.

CHILLICOTHE

The Chillicothe campus, one of the first three to be established, was opened in 1946 with an enrollment of 274. It now has an enrollment of 748. Its new building, Bennett Hall, was opened in the fall of 1966. The 168-acre campus is located on Fifth Street west of the city's business district. An additional 53 acres was recently acquired for the campus and will be used for recreation, intramural athletics, and physical education. Dr. William A. Boram directs the Chillicothe campus.

LANCASTER

Started in 1956, the Lancaster campus is presently operating from the Lancaster High School. The first building is now under construction on a new 110-acre campus located on State Route 37 and is expected to be completed in the spring of 1968. Since opening in 1956 with 294 students, the campus's enrollment has increased to 792. The Lancaster director is Thomas L. Helms.

Bennett Hall is the new building on the University's Chillicothe campus.

PORTSMOUTH

This campus was one of the first to be established, opening in 1946. A new Georgian-style building, Henry Massie Hall, opened to area students in February, 1967. The campus is composed of four city blocks overlooking the Ohio River and is located just off U. S. Route 52. Started with an enrollment of 381 students, the campus now has almost 900 students. Dr. William S. Westbrook is director of the Portsmouth campus.

ZANESVILLE

Established in 1946 with an enrollment of 204 students, the Zanesville campus opened its new building, Henry Elson Hall, to approximately 1,000 students. The attractive 169-acre campus site is located on State Route 146 just off Interstate 70. Roy E. Gillespie directs the campus.

IRONTON

At the academic center in Ironton, approximately 400 students take Ohio University courses for credit. Since its establishment in 1956, the center has been located at the Ironton High School. The center is directed by L. Wellman Bowman.

LOCKBOURNE

An educational center offers Ohio University courses to servicemen and their families stationed at the Lockbourne Air Force Base near Columbus. Over 325 people use this center, which is under the direction of Paul H. Burcher.

The Lancaster campus' building is scheduled for completion in spring, 1968.

BUILDING FACILITIES

Each of our new campus buildings houses language laboratories, science laboratories, libraries, lecture halls, and faculty and student lounges, as well as ample classroom space and offices. A college book-service store is located within each building for the convenience of students and faculty.

STUDENT HOUSING

Our campuses, as yet, do not have University residence halls. However, each maintains a list of approved private housing available within the community.

At the Chillicothe campus, a privately financed 312-unit apartment development is being designed with the student in mind. Construction will begin this year. Plans call for each student residence to be supervised by a faculty member and his wife or a special residence director. It is likely that such facilities will be developed in the other campus communities in the near future.

PARKING

The new buildings have been planned with adequate parking space. There is a nominal fee for use of these facilities.

TOURS

Any student or parent wishing to visit one of the campuses may do so by contacting the director's office to make arrangements. We encourage such visits, and you will find the reception conducive to getting questions answered and curiosity satisfied.

Elson Hall on the new Zanesville campus.

Shannon Hall, on the 360-acre Belmont County campus, was dedicated in 1966.

Massie Hall on the Portsmouth campus overlooks the Ohio River.

ADMISSIONS AND RELATED INFORMATION

ADMISSION REQUIREMENTS

Admissions policies for the new campuses are the same as those for the Athens campus.

Specific high school courses are not required for admission to undergraduate study at Ohio University. However, the following distribution of subject matter prepares a student for the pursuit of any curriculum at the University: three years of English, two years each of foreign language, social science, and laboratory science, and one year each of algebra and plane geometry.

FRESHMAN APPLICANT Students are admitted as regular full-time or special part-time freshmen on the basis of a prediction of their success in a full-time university program of studies.

The prediction of an applicant's success in a full-time program is based upon an evaluation of his previous courses of study, his grades and rank in class, the school's recommendation, test results, and special talents.

If a person does not meet the minimum requirements for full-time study but lives within commuting distance of any campus of the University, he may enroll as a special part-time student.

If an applicant does not meet the minimum requirements for full-time study, is less than 21 years of age, and does not live within commuting distance of one of the campuses, he should seek admission to another college or university.

TRANSFER APPLICANT An accumulative grade average of 2.25 (on a scale in which A is 4) is normally required of the transfer applicant who is a resident of Ohio; a 2.5 if a non-resident.

MEDICAL REQUIREMENTS For the protection of our students' health, a medical history and physical examination report from the family physician is required for admission to the University. This report includes verification that the student has received a small pox vaccination within the past three years and immunization against tetanus within the past five years.

A medical insurance plan for students attending our campuses is scheduled to become effective by the fall of 1968.

WHEN TO APPLY

A high school student may apply for admission to undergraduate study at any time following his junior year in high school. The application deadline for the fall quarter is the preceding August 7. Applications for other terms are accepted up to a month before classes begin.

APPLICATION PROCEDURES

Application materials for admission to the new campuses may be obtained from the director of the campus or from the Office of Admissions, Ohio University, Athens, Ohio 45701.

The procedure followed in applying for admission to any of the campuses is determined by the extent and location of the individual's formal education up to that point.

FRESHMAN APPLICANT If any person (1) has or soon will have a secondary school diploma and (2) has never been enrolled in full-time study at another institution of post-high school work and has not attempted as many as 12 semester hours (or 18 quarter hours) of course work at another institution, he applies as a freshman applicant.

A freshman applicant files (1) an admissions application, accompanied by a \$20 non-refundable fee; (2) a transcript of all previous high school course work and grades, including rank in class; and (3) required test results.

Ohio residents may take the Scholastic Aptitude Test (SAT) or the American College Test (ACT), although the SAT is preferred. Non-Ohio residents must take the SAT. The University strongly recommends that the student take his test during the fall testing period. The high school counselor or the principal's office usually has information about when and where these tests can be taken and how to register for them.

Once the necessary information is filed, the application is processed and a decision is made to either grant provisional admission, deny admission, or defer a decision pending receipt of additional information. The applicant receives written notification of the decision.

If provisional admission is granted, the student receives a form for submitting his final high school grades, if these were not included on the initial transcript. He also receives a medical report form.

Once these documents are completed and returned, final approval for registration is granted. The student's credentials are then forwarded to the dean of University College and the director of the campus, who invites the student to participate in an orientation program. This program includes a review of the student's preparation for college, an introduction and orientation to the University and its requirements, a briefing about the educational programs at the University, and preparation of a class schedule.

TRANSFER APPLICANT If a person has been registered for full-time study or has attempted at least 12 semester hours (or 18 quarter hours) of course work at another institution of higher education, he applies as a transfer applicant.

A transfer applicant files (1) an application form accompanied by a \$20 non-refundable fee and (2) a transcript from each post-secondary institution in which he has been registered as well as a high school transcript. If the transfer student has earned less than 12 semester hours (or 18 quarter hours), he is expected to submit test results as would an entering freshman.

Once provisional admission is granted, the student receives a medical report form to complete and return with any supplemental transcripts required prior to final approval for registration.

APPLICANT FROM ANOTHER COUNTRY A citizen of another country, if interested in study on one of the new campuses, should request application materials from the Director of Admissions and Registration for Off-Campus Academic Programs, Ohio University, Athens, Ohio 45701.

SPECIAL STUDENT If an applicant (1) wishes to carry a limited number of courses at the University but is not interested in a degree program at this time, or (2) does not meet the minimum requirements for admission as a regular full-time student and lives within commuting distance of one of our campuses, he may apply for admission as a special student.

Such applicants may be cleared for registration upon the completion of a special student application and filing of a statement

of good standing or an official transcript from the school(s) previously attended. The statement or transcript must include a report of the applicant's grade point average on all credits attempted.

Special students may carry as many as 11 credit hours of courses per quarter (compared to the 15-20 hours carried by full-time students).

CHANGE OF CAMPUS

After completing their freshman and sophomore years at one of the new campuses, many students choose to relocate to the Athens campus to finish requirements for a degree. Students who do this are not considered transfer students. They merely move from one campus to another. Our students may also change from one new campus to another — e.g., Belmont County campus to Zanesville campus.

To make either type of move, a student should contact the Director of Registration, Ohio University, Athens, Ohio 45701, for a change-of-campus form. He should apply at least one month prior to the beginning of the term for which he wishes to change campuses. However, if a student is relocating to the Athens campus and wishes to live in University housing, he must submit a change-of-campus form by May 15 for the fall quarter to insure his obtaining University housing.

RESIDENCE REQUIREMENT

In order to obtain a bachelor's degree from the University, our students are normally required to complete a minimum of one quarter with 15 hours credit at the Athens campus. However, under special circumstances, this requirement may be waived at the discretion of the academic dean.

Enrollment for student teaching at the new campuses gives credit toward Athens campus residence. The residence requirement may be completed at any time; it need not be during the final weeks prior to receiving a degree.

Those pursuing the Associate in Arts degree may complete all requirements for this degree on the new campuses.

Part-time students earn residence credit equivalent to the number of hours they complete.

Credit earned in off-campus continuing education and correspondence study does not count toward fulfillment of the residence requirement.

COSTS

Estimated costs for the student attending our campuses are:

	Quarter	Year (3 Quarters)
Comprehensive Registration Fee.....	\$165	\$495
Books and Supplies	\$ 35	\$105

If a student is a special student (taking from one to 11 credit hours), his tuition is \$15 per credit hour.

If a student is from out-of-state, his tuition is \$330 per quarter or \$990 per year or \$30 per credit hour if a special student, taking from one to 11 credit hours.

There usually are no other costs involved for the student who lives at home. Those who live in approved housing within the community would, of course, incur room and board costs. The director of each campus can be contacted to provide up-to-date estimates of the ranges of such costs in their respective communities.

FINANCIAL AIDS

Every effort is made by Ohio University to provide financial assistance for qualified applicants who might otherwise be unable to attend one of Ohio University's campuses.

The Student Financial Aids Program offers four kinds of assistance: scholarships, National Defense Student Loans, College Work-Study Employment, and Educational Opportunity Grants.

Students may apply for the first three types of aid. Educational Opportunity Grants are awarded to eligible students who have submitted applications for scholarships and National Defense loans and who still have a dire need for supplemental funds.

Students from the new campuses often migrate to Athens for a football game.

A student with high academic standing who has a critical financial need may obtain all four types of financial aid.

SCHOLARSHIPS Two types of scholarship awards are available: (1) the President's Honor Awards up to \$150 per year and (2) need scholarships, which usually pay three-fourths of tuition. President's Honor Awards are granted to students who have established high academic records, but who are unable to demonstrate a need for financial assistance. Need scholarships, however, are awarded to students who have established high academic records and who are also able to demonstrate financial need.

To receive a scholarship after the freshman year, a student must maintain at least a 3.0 (B) accumulative average and resubmit an application each year.

LOANS The long-term loan most often applied for is the National Defense Student Loan. Under this loan program, students have a borrowing eligibility of \$1,000 per year. These loans are approved on the basis of financial need, high school academic record, and availability of funds. Students who are not entering as freshmen must have at least a 2.0 (C) accumulative average to qualify for a loan. Reapplication is required each year.

Interest rates for the National Defense Student Loans are established at three per cent per annum on the unpaid balance, starting with the date on which repayment of the loan is to begin. Repayment begins one year after a borrower ceases to pursue at least a half-time course of study at an institution of higher education and ends ten years thereafter. However, repayment can be extended for graduate school, military service, or service with the Peace Corps or VISTA.

One-half or more of the balance of the loan may be cancelled for full-time teaching in a public or private non-profit elementary or secondary school or in an institution of higher education. The normal rate of cancellation is ten per cent per annum for each year of full-time teaching. Fifteen per cent cancellations are permitted for teachers employed in poverty districts designated by the U. S. Department of Health, Education and Welfare.

COLLEGE WORK-STUDY PROGRAM Employment under the College Work-Study Program is another phase of the financial aid program. Employment opportunities are available throughout southeastern Ohio on a part-time basis during the school year and full-time (40 hours per week) during summer months. All placements are made on a yearly basis and reapplication is necessary each year.

EDUCATIONAL OPPORTUNITY GRANTS Students awarded Educational Opportunity Grants are not required to repay funds received through this program. These grants, awarded only to exceptionally needy students, vary in amounts ranging from \$200 to \$800 per year with a matching amount provided by the University through scholarships and/or National Defense loans.

Students who desire an Educational Opportunity Grant should submit applications for both a scholarship and a National Defense Student Loan.

Those students who are not entering freshmen must maintain at least a 2.0 (C) accumulative average to receive such a grant. To continue on an Educational Opportunity Grant, the recipient must be able to demonstrate continued need for financial assistance and must reapply each year.

All students applying for any type of financial aid, excluding the President's Honor Award, must submit a Parents' Confidential Statement to the College Scholarship Service each year at least one month prior to the deadline date designated for financial aid.

applications. *Please understand that the Parents' Confidential Statement is not an application for financial aid.* It is a standard device used by most universities for determining the financial need of the student.

Students may obtain the Parents' Confidential Statement form from their high school, Ohio University Student Financial Aids Office, or the College Scholarship Service, Box 881, Evanston, Ill.

The ideal time for entering freshmen to request information and applications for financial aid is during the month of October of their senior year in high school.

The deadline date for scholarship and loan applications for the fall of 1968 is March 1, 1968. Some employment opportunities arise throughout each academic year, although the majority of the jobs are assigned prior to the beginning of the fall quarter.

Students desiring information and/or applications should write to the Office of Student Financial Aids, Ohio University, Athens, Ohio 45701.

FACULTY AND CURRICULA

FACULTY

The 85 full-time faculty members on Ohio's new campuses are experienced teachers with at least master's degrees; most have completed some work toward doctoral degrees. Part-time faculty are contracted from faculty of the Ohio University campus at Athens as well as from other campuses such as Ohio State University, Marshall University, Capital University, Bethany College, Muskingum College, Marietta College, Otterbein College, and Denison University.

For the most part, our faculty conduct small, intimate classes. Except in very rare instances, students are not exposed to large lecture sections.

CURRICULA

Primarily geared to a two-year liberal arts education, our campuses offer freshman and sophomore level courses in arts and sciences, business administration, and education as well as courses in the fine arts and engineering. Some upper division and graduate level courses are offered with approval of the main campus' academic departments and the Graduate College.

All academic affairs on the new campuses are closely coordinated with the faculty and administration of the Athens campus.

The new campuses offer courses in the following areas:

Accounting	Journalism
Art	Library Science
Biology	Management
Botany	Marketing
Business Communication	Mathematics
Business Law	Modern Languages
Chemistry	Music
Communication	*Nursing
Comparative Arts	Philosophy
Economics	Physical Education
Education	Physical Science
Engineering Graphics	Physics
English	Psychology
Finance	Quantitative Methods
Geography	Sociology and Anthropology
Geology	Speech
Government	Theater
History	Zoology

*Available at the Zanesville campus only.

Several instructional programs are telecast from the Athens campus to the new campuses and their communities. These programs are viewed by our students at the same time they are viewed by students on the Athens campus. "Live" instruction is always provided in conjunction with television programming to maintain interaction between students and faculty.

UNIVERSITY COLLEGE — FRESHMAN STUDIES

All freshmen are first enrolled in the University College. This college is concerned with the progress of students during their first year of studies and until they qualify for advancement to a baccalaureate degree-granting college or complete requirements for an Associate in Arts degree.

Normally, the student who plans to obtain a bachelor's degree spends his freshman year in University College and the following three years in whichever degree-granting college he chooses.

University College offers the student an opportunity to explore various fields of knowledge before specifying his major or area of concentration. All freshmen schedule courses in certain subject areas. These include two quarters of English, one quarter of speech, and three quarters of physical education. Other subjects scheduled during the freshman year are one year each arranged in two of four groups: *humanities*, including modern languages, philosophy, great books, Latin or Greek, and comparative arts; *mathematics*, including algebra, geometry, trigonometry, and calculus; *natural sciences*, including biology, botany, zoology, chemistry, geology, and physics; *social sciences*, including economics, geography, government, history, psychology, sociology, and anthropology.

In addition, many courses in these and other areas are available to the freshman on an elective basis.

ADVANCEMENT TO DEGREE-GRANTING COLLEGES

At the end of three quarters a student may be advanced to the degree college of his choice provided he has earned 45 hours of credit, is not on probation, and has completed a mathematics requirement of high school algebra and Euclidean geometry.

All students planning to obtain the baccalaureate degree must qualify for advancement to the degree college within eight quarters.

ASSOCIATE IN ARTS DEGREE

For the student who does not intend to complete a four-year program, University College offers a two-year program leading to an Associate in Arts degree.

Curricula leading to this degree furnish a background for certain professional schools or for employment in a number of specialized fields. These may include general business, nursing, pre-professional fields such as pre-pharmacy and pre-mortuary science, recreation leadership, and other areas of work requiring a two-year program of general education.

STUDENT ACTIVITIES AND PROGRAMS

The opportunity for our students to participate in academic and social organizations and other special projects is readily available at Ohio University's five new campuses.

EXTRA-CURRICULAR ACTIVITIES

Each campus edits and produces its own student newspaper and has clubs and organizations such as academic honoraries, drama groups, intramural athletics, and language clubs. Most student activities, such as regularly scheduled student mixers and discussion groups, make use of facilities on the campuses themselves. Some activities also utilize facilities in the communities.

Activities are under the guidance of a director of student programs and a student activities committee, which is composed of interested students and faculty.

In addition to these extra-curricular activities, our students have conducted such worthwhile projects as fund-raising drives for local organizations. Three of our campuses recently sponsored a series of projects to collect clothes for war orphans throughout the world.

Our students have also been active in community political activities. Interested young people at the campuses are able to participate and become involved in community affairs and local government agencies. An internship program has been developed for the Portsmouth campus to allow students to serve and work closely with various city officials. The other campus communities may soon have similar programs. This kind of program can create a closer bond between the student, the University, and the community. Even more important, the student can profit from realistic contacts with the world around him.

Students attending our campuses are also eligible to attend events and use the physical facilities on the Athens campus.

CULTURAL ENRICHMENT PROGRAM

A cultural enrichment program provides diverse cultural activities and entertainment for students on the new campuses. Each year a wide range of events is scheduled, including theater productions, lectures, concerts, and art exhibits.

Lecturers have included Madame Claire Chennault, journalist, author, and widow of Gen. Claire Chennault of Flying Tiger fame; John Carradine, distinguished actor of stage and screen; Marquis Childs and Roscoe Drummond, syndicated newspaper columnists; Dr. Ferenc Nagy, former prime minister of Hungary; and U.S. Sen. William Proxmire of Wisconsin. In addition, outstanding faculty from other campuses as well as from Ohio University's main campus visit Ohio's new campuses to lecture on their respective areas.

The calendar of events for 1967-68 includes visits by noted criminal lawyer F. Lee Bailey; Barry Goldwater; Paul-Henri Spaak, first president of the UN's General Assembly; U.S. Rep. Gerald R. Ford of Michigan, minority leader in the House of Representatives and member of the investigative board concerned with President Kennedy's assassination; and Pearl S. Buck, author and Nobel Prize winner.

ADVISING AND COUNSELING

Ample time is set aside for each student on Ohio's new campuses to receive personal, vocational, and academic counseling. Informal contacts between faculty and students are encouraged. A faculty adviser is assigned to each student so that the entering freshman or sophomore receives individual attention to help him in planning his program of studies, but the responsibility for designing and following a program is still the student's.

OFF-CAMPUS ACADEMIC PROGRAMS

ADMINISTRATION

The Office of Off-Campus Academic Programs of Ohio University serves to provide the University with one central administration for dealing with the many academically related programs of our new campuses, academic centers, and continuing education. Instead of dividing administrative responsibilities among the several degree colleges of the University, and rather than duplicate several smaller versions of these colleges on each of the campuses, the University has chosen to utilize the Office of Off-Campus Academic Programs as the single coordinating unit of the University and gives it responsibility for administration of the campuses and continuing education. The Dean of Off-Campus Academic Programs and his staff have close working relationships with the other academic deans and department chairmen for the recruitment of faculty, design of courses, and the acquisition of appropriate laboratory and library material. This administrative arrangement permits a small, closely-knit group of educators to acquire an intimate knowledge of the problems and potentials of the new campuses while maintaining and enhancing the University's academic standards on all of the University's campuses.

Members of the Off-Campus Academic Programs' staff discuss future plans. Left to right: Dr. William R. McGraw, Associate Dean; Edward W. Erner, Coordinator of Student Programs; Dr. Edward M. Penson, Dean; Ralph D. Smith, Associate Dean; and Frederick L. Dudis, Business Manager.

Each of the campuses is administered by a director. These men are the University's chief representative on the campus and in the community. They are appointed on the basis of their perception of (and support for) the University's objectives, their administrative and teaching experience, and their desire to make higher education more accessible to qualified students.

EXTENSION DIVISION

The continuing education program includes both extension classes and correspondence study. Credit and non-credit extension classes are selected from regular course offerings of the University and may be set up to meet the needs of professional groups in business, industry, education, or other professions. Correspondence study courses are drawn from curricula of the baccalaureate degree-granting colleges and are offered for credit or non-credit.

A specialist in continuing education is located at each of the six campuses of the University: Athens campus, Z. Brent Fry; Belmont County campus, Lester E. White; Chillicothe campus, Wilbur L. Mundell; Lancaster campus, Paul P. Mechling; Portsmouth campus, Franklin T. Gerlach; Zanesville campus, Lawrence E. Looby.

Information about correspondence courses may be obtained from Dr. Elizabeth B. Stanton, Director, Independent Study through Correspondence, Ohio University, Athens, Ohio 45701.

THE UNIVERSITY

A coeducational, state-assisted institution, Ohio University at Athens offers undergraduate study in approximately 100 areas, master's degree work in 44 areas, and 13 doctoral programs. Its degree-granting colleges are Arts and Sciences, Business Administration, Education, Engineering and Technology, Fine Arts, Graduate, and University College. The schools are Architecture and Design, Art, Communication, Home Economics, Journalism, Music, and Theater.

All campuses operate on a quarterly calendar, which consists of four terms of 10-12 weeks duration. The summer quarter includes two five-and-one-half-week sessions.

Ohio University is accredited by the North Central Association of Colleges and Secondary Schools, and by many professional associations identified with various academic areas of the University. The University also holds membership in leading state and national professional associations. All off-campus programs, including the five new campuses, the academic center, and the education center, share accreditation and memberships with the main campus.

WHERE TO WRITE

For more information about a particular campus, contact the director of that campus.

Ohio University — Belmont County
Mr. E. R. Bovenizer, Director
Shannon Hall
National Road West
St. Clairsville, Ohio 43950

Ohio University — Chillicothe
Dr. William A. Boram, Director
Bennett Hall
571 West Fifth Street
Chillicothe, Ohio 45601

Ohio University — Lancaster
Mr. Thomas L. Helms, Director
P.O. Box 747
