#### FIRE!!

A fire broke out, about I o'clock yesterday morning, in the rear, between a small frame occupied by Mr. Willis as a Coffee house and another vicant one adjoining on the west. There was very little wind but, everything being dry, the fire spread rapidly and the two buildings first caught, together with two other small frames on the east, one occupied by Mr. Sidenbach as a clothing store, and the other by Mr. T. Lawson as a grecery, were soon enveloped in flames. The engines were on the spot in good season and, although the four frames could not be saved, did good service in checking the fire, and preventing it from sprending further. Much of the property in the buildings was saved. and we understand that Mr Sidenbach was insured. It is not certainly known how the fire originated.

The men at the engines worked nobly and until they were exhausted; although there were handreds at the top of the grade gazing idly on the flames. Our citizens ought to remember that at this stage of water, there is a height of about 50 feet to overcome before reaching the pavement, and then sometimes as much more to the top of high buildings. This requires great power, and it is too much for one, or even two sets of hands to do properly. At the engines, the most efficient aid can be rendered; in fact, the first thing should to man them sufficiently. Where was the hook and ladder company? Or is there one in existence? We should judge not, from the fact that at a late moment some citizens, went after those implements, so necessary in a fire like this.

### Stream of Time.

proprietely called the Steam of Time. We saw it three or four years since, and was so favorably impressed with its usefulness and superiority over anything of the kind, that we then became a subscriber. We cheer-wash our clothes, or pay 1 dime for about 4 gallons of water which is carried on a mule. felly recommend it as well worthy the patronage of our citizens.

The following letter, from our fellow citizen, Charles S. Smith to his hrother, will be found interesting, although he had not yet reached his final destination. Othor letters have been received within a day or two, which we have not seen.

Panama, May 5, 1850. Dear Brother: - I received your letter on board the Empire City a few hours after we started, it was given to one of the passengers by Mr. Bushe who took it from the office but could not find me; and glad was I to hear from you all, and that you were well. I am well and have been since I left you. John and Alpheus were gone before I got here; how long, or how, I do not know. The steamer in which they were to go has not yet arrived. The weather is very warm, say from 90 to 115 degrees. Young, Gregory, & co., are here. Young was not very well yesterday. McCloud is preparing to go back—says that he cannot, nor will not stay 4 or 5 weeks here waiting for the Sarah Sands, which we will have to do. I think that is better than going back or taking a sail vessel—Fagasn, of N. Richmond is here. He took a sail vessel last year. He prefers to stay here 2 months rather than go on one again. It soon will be the rainy season here, and then calms are the consequence to all the vessels. I have not felt like turning back as yet. There have been a great many people here, say near 3,000 at a time. have been here 8 days. The Oregon left with about 500, and sailing vessels are going daily with from 1 to 200. At this time there are not more than 1500 or 2000 people here, Some are at hotels at \$8 to 10 per week; others are camping in tents; others rent rooms at 50 cents per day. We have a room 10 cents per day, and boarding ourselves, which costs us about 75 or \$1,00 per day. Probably Young & co., will come and take part of our room with us this week. Everyhing in the eating line is very high. Califormie prices, flour 8 to 10c per lb., potatoes 4c lb., Pies dried Apple 40c a piece, Eggs 30 to 40c per dozen, Coffee 20c, Sugar 15c. Crossing the sea or Adantic, I was not at all sick. The river from Chagres to Gorgona is a very pretty little stream, similar to Scioto, only not quite so rapid, and the road to Panama is not much worse than the road to not very wise to strike out the latter provi-Jackson. I was very much and very agree-ably surprised with it. We all walked over one day. Our baggage cost us \$8 per hundred—I had 104lbs. I have written to Mr. Locke, and given him a more particular account, probably he may or will send it to you. We had some ladies on the route with us from Chagresto Panama. I would udvise them to stay at home until the canal or railroad is completed, for they have to undergo

Awful Steamboat Explosion. all kinds of trials and hardships, sights and inconveniences which I cannot describe, but look with pity on them. I believe that the time will be and that before long when they can travel through here as well as they can in the States. The uncertainty of the in the States. The uncertainty of the steamers will be abviated soon. The regu lar mail line is now very certain, but if you do not go in the best manner and have through tickets on that line, you will be treated more like brotes, then human be-ings. But I must say that all the officers and crew on the Empire City were first rate, and did all they agreed to do; but Gregory & co., on the Georgia, were treated very badly. The day they were getting off they had to pay 20 cents per quart for water, and got nothing to eat all day. Mr. Mocke has put it in my power to get if I may want \$,1000 from a house in San Francisco.

I will write you a-gain before leaving here in all probability, and now larewell until we meet egain. For my sake, you will please go to the grave of my poor Mary once and in a while and there pray for us all. Good by dear brothers and relative CHARLES \_\_\_\_

PANAMA, New Grenada, May 7, 1850. Dear Brother:—The mail closes this day Ah, doctaw, does the choleraw awfect the highaw awdaw?" asked an exquisite of a celebrated physician, in New Orleans.
"No," replied the M. D., "but it is death on fools, and you had better leave the city immediately." The fellow sloped.

The MAMA, New Greinag, in Parallel, The mail closes this day at 5 o'clock. I would just say that we are all well as yet, in good spirits and fine appetites. McCloud has concluded to go on to san Francisco with us, he went so far as to sell his ticket to Young, but he let him have it again this morning. I send Capt. Davis

a paper with some Chilli Wheat in it, I done it up and give it to Buck to bring, but have to send it by mail. It is raining and shining alternately, which I presume is the be-ginning of the rainy season. The staple products of the country are dogs and puppies, with a few young negroes or Pickanin-

You may rest assured that I will do my best in all ways; our time will hang heavy on our hands, but it will pass. If I had known precisely how long we would have to tarry here, I would have you written here, but when you receive this it will be too late. Good bye dear brothers and friends. CHARLES.

Correspondence of the Dispatch.

Columbus, May 29. Messrs. Collins and Barbee, each presented a petition this morning, asking that provision may be inserted in the new constitution requiring the legislature to pass laws prohibiting the sale of spirituous liquors.

The convention again went into committee of the whole on the report of the Legislative committee, and progressed during the day as far as to the 19th section, making divers amendments; and that, too, without making any long speeches!! Quite an improvement in that particular!

The first important amendment, in addition to what I gave you yesterday, was to the 5th section, which relates to the qualifications of senators. The amendment requires that they shall have the same qualifi-cations as a Representative, and nothing

Section 10 was amended so that any one member (instead of two) of either House, shall have the right to profest against any act or resolution, outo have such protestenterupon the journal. That portion of the 15th section which declares that all bills providing for any appropriation of the public money shall originate in the House of Repre sentatives, was stricken out.

Section 18 was all stricken out. It provided that the General Assembly should fix the compensation and term of all officers not fixed in the constitution; and also, that no change in the salary of any office should affect the person filling that office when such change should be made. It was certainly

Notes about Town.

We strolled into the Drug. Store of Dr. Corson, the other day, who has a choice assortment of everything in his line. We were particularly struck with the great variety of toilet accompaniments, tastefully and beautifully got up; such as soaps, oils, pomades, dentrifices, perfumes, brushes, &c., many of them designed especially for the ladies, the uses and application of which we are profoundly ignorant of, and would not wish to be thought profane enough to inquire into. The Doctor's establishment, we fancy, will become a favorite resort for those who wish to improve or preserve their personal attractions, which after all is a matter that, within reasonable limits, ought never to be neglected.

#### More Factories in Georgia.

The Atlanta Intelligencer says:--We carn that the M nufficturing Company at Roswell, in Cobb County, have recently. aid the foundation of a new factory near the site of the one now in operation. The new factory is to run 5000 spindles and the building materials are all nearly in resness. We learn also that Gov. Metallic Fire and Weather Proof Paint.

THIS justly celebrated and extraordinary Metallic substance has now been before the public for several years, and has given en-tire satisfaction to all who have used, or had it tire satisfaction to all who have used, or had it applied on their work, becoming as it does, as hard as the hardest kind of stone, and perfectly impervious to fire or water. This paint is now extensively used for the bodies and roofs of brick, stone and plaster houses, barns, railroad depots and steamboats. It is also a superior article for machinery, castings, &c., hesides being the best of paint for carriage work, as it is susceptible of a high polish, and will never crack. In short, it is the cheapest and best preservative from fire or water ever offered to the public.

preservative from fire or water.

The undersigned would inform the public that they are still continuing to manufacture at Brooklyn, Cuyahoga Co. O., and are prepared to supply orders large or small.

The genuine article can be had Wholesale or Retail at J. L. McVey & Co., Portsmouth, O; Seaton & Sharp, Maysville, Ky.; and in most of the principal towns throughout the United States.
