Ohio University’s new campuses are an outgrowth of the University’s branches established more than 20 years ago. Recognizing that opportunities for higher education would be needed and deserved by more men and women than could be served by existing institutions, Ohio University pioneered in developing a new approach to the old problem of making higher education both accessible and worthwhile. The aim is to offer more than just a full two-year curriculum to students beginning their college careers. The University considers it equally important to provide an atmosphere conducive to learning and self-discovery—not just in the classroom alone, but also in the day-to-day happenings of campus life.

Our new campuses provide the student a place in which he can make an effective beginning. The treasured intimacy of the small college is preserved while the extensive resources of a major university are utilized. Faculty are appointed because they are qualified and motivated to teach. The libraries are designed for the beginning student. The latest science and language laboratory equipment supports the specific courses offered in the University’s freshman and sophomore programs. Our students are helped to prepare for the completion of their baccalaureate degree. Numerous financial aids and scholarships are available. (See page 17).

A faculty adviser is accessible to each student on the new campuses. The student may begin a major program, but he is not required to do so. He may take courses unrestricted by the requirements of a given major program, or he may declare a major and get started right away. Some students combine both approaches by beginning a major program their second year after exploring a variety of subjects during their freshman year.

Part of the academic plan does not involve the classroom. Student life is an important aspect of the scene. Students edit their own newspapers, help govern themselves, and participate in theater productions, choral groups, student-mixers, intramural athletics, clubs, and other activities. We offer our students a rich program of distinguished guest speakers, concerts, plays, movies, and art exhibits.

The aim of the plan, then, is to give the student a small, intimate campus, put learning within his reach, and then reach him. We know we cannot force students to learn if they have neither the talent nor the motive. For those who do, however, Ohio University and its new campuses provide an opportunity.

This brochure is aimed at answering your most immediate questions about our campuses. We welcome further inquiries.
CAMPUS FACILITIES

Our new $2.25 million buildings house libraries, language laboratories, science laboratories, and student lounges, as well as ample classroom space. There are also lecture halls, faculty lounges, administrative and faculty offices, and college bookstores where you may purchase your class supplies and textbooks.

LIBRARIES—Our libraries are built around the concept of "learning resources centers." In addition to books and periodicals, one can find such non-book materials as slides, film strips, audio tapes, and records on a wide range of topics including plays, lectures, and music. All materials (non-book as well as book) are cataloged in one central file for your convenience and all may be borrowed from the library of the campus where you enroll. A wide variety of supporting audiovisual equipment makes these truly learning resources centers.

LABORATORIES—Our science and language laboratories are furnished with the latest equipment. If you enroll in any science class such as biology, chemistry, or physics, you will find these laboratories a definite aid in your class experiments and studies; if you are studying a foreign language, practice in the language laboratories is an excellent aid in helping you master the new, unfamiliar sounds.

COLLEGE BOOKSTORE SERVICES—The individual campus bookstores operate entirely for the convenience and benefit of our students and faculty. Books are sold at a discount of five percent off the list price. In some instances, supplies are offered at a discount if they are required by a class. Art supplies usually fall into this category. In addition, a number of miscellaneous school supplies and materials are available. On occasion, the campus bookstores will purchase used books from the students. Any profits made by the bookstores are used for student scholarship funds and other student services.

STUDENT HOUSING—Since University residence halls have not been constructed at the five locations, each campus maintains a list of available housing within the local communities. In all of the new campus communities, private investors are examining ways of providing private residence halls and/or apartment accommodations for students.

PARKING—Adjoining each of the new campus buildings is an adequate parking facility.

LANCASTER

The new Lancaster campus was opened to students in the fall of 1968. The contemporary five-level building is situated on a 110-acre site on State Route 37 on the north edge of Lancaster. Since opening in 1956, the enrollment has increased to more than 1,000. The full-time faculty numbers 19 and the part-time faculty 41. The director is Dr. Lowell LeClair.
PORTSMOUTH

The Portsmouth campus, which opened in 1946, was also one of the first to be established. The new Georgian-style building, Henry Massie Hall, opened to area students in February of 1967. The campus is composed of four city blocks overlooking the Ohio River and is located just off U.S. Route 52. There are now 800 students enrolled at Portsmouth with a complement of 24 full-time and 31 part-time faculty. The campus offers a two-year Associate Degree in Nursing. Dr. William S. Westbrook is director of the Portsmouth campus.

CHILlicothe

The Chillicothe campus, one of the first three to be established, was opened to the area in 1946. Its new building, Bennett Hall, was opened in the fall of 1966, and the campus now enrolls nearly 750 students and has 22 full-time and 23 part-time faculty. The campus is situated on a 109-acre site west of the city's business district on University Drive. An additional 52 acres were recently acquired for the campus and are being used for recreation, intramural athletics, and physical education classes. Dr. Edwin Hunt Badger directs the Chillicothe campus.
ZANESVILLE
Established in 1946, the Zanesville campus opened its new building, Henry Elson Hall, in 1967. Its enrollment is approximately 1,150 and the faculty numbers 25 full-time and 51 part-time persons. The attractive 180-acre campus site is located on State Route 146 just off Interstate 70. The campus offers a two-year Associate Degree in Nursing. Roy E. Gillespie directs the campus.

BELMONT COUNTY
Established in 1957 at the Martins Ferry High School, today the Belmont County campus operates from a new building, Wilson Shannon Hall, and has an enrollment of approximately 1,000. In addition, the campus has 22 full-time and 47 part-time faculty members. The new Georgian-style building is located four miles west of St. Clairsville on Route 40 near Interstate 70 in the scenic Belmont County area. Ohio University recently purchased Dysart Woods, a 455-acre tract near the campus. Dysart Woods will be used as an outdoor botanical research laboratory. The new campus, under the direction of Dr. E. R. Bovenizer, opened to students in February of 1967.
IRONTON

Approximately 400 students take courses at the Ironton academic center. Established in 1956, the center is located at Ironton High School. Plans are being formulated to build a campus facility in the near future. The center is directed by L. Wellman Bowman.

LOCKBOURNE AFB

An educational center offers Ohio University courses to servicemen and their families stationed at the Lockbourne Air Force Base near Columbus. More than 325 people use the center, which is under the direction of Paul H. Burcher.

TOURS

Guided tours for you, your parents, or friends are encouraged and can be arranged easily. Appointments may be made through the director's office, or you can stop by any time you are in the vicinity.

Groups (such as high school classes) interested in touring the facilities should call or write to the director of the campus so special arrangements for visits to classes, talks with professors and students, or other events may be arranged.

We encourage visits to our campuses. You will find your reception there conducive to getting questions answered and curiosity satisfied.

INSTRUCTION

FACULTY

The 110 full-time faculty on Ohio University's new campuses are experienced, qualified teachers. Within the last two years the number of resident faculty has more than quadrupled to allow smaller classes and more personal contact between faculty and students. Except in very rare instances, our students are not exposed to large lecture sections.

Informal conversations between faculty and students are encouraged at all of our campuses. You are likely to see many faculty members attending student events as well as helping sponsor or plan them.

Part-time faculty are employed to supplement our full-time teaching staff. These instructors may be contracted from the Ohio University campus at Athens as well as from other campuses such as Bethany College, Capital University, Denison University, Marietta College, Marshall University, Muskingum College, and Ohio State University. Other part-time faculty members are professional people employed for their specialized skills.

ADVISING AND COUNSELING

All students attending our campuses are assigned a faculty adviser. One of the primary duties of your adviser, if you are an entering freshman or sophomore, is to aid you in planning your program of studies, although the major responsibility for designing and following a program is yours. Ample time is set aside for personal, vocational, and academic counseling because our faculty and staff believe that this is a significant and valuable part of a college education.
PROGRAMS OF STUDY

CURRICULA

Geared primarily to a two-year liberal arts education, our campuses offer freshman and sophomore level courses in arts and sciences, business administration, and education, as well as courses in the fine arts and engineering. Some junior and senior and graduate level courses are offered with approval of the appropriate academic departments or the Graduate College. All academic affairs on the new campuses are closely coordinated with the faculty and administration of the Athens campus.

The new campuses offer courses in the following areas:

Accounting
Art
Audiovisual Education
Biology
Botany
Business Communication
Business Law
Chemistry
Comparative Arts
Economics
Education Administration
Elementary Education
Engineering Graphics
English
Finance
Geography
Geology
Government
Guidance and Counseling
Hearing and Speech Sciences
Interpersonal Communication

*Available at Portsmouth and Zanesville only.

Journalism
Library Science
Management
Marketing
Mathematics
Modern Languages
Music

Nursing*
Philosophy
Physical Education
Physical Science
Physics
Psychology
Quantitative Methods
Radio-Television
Secondary Education
Special Education
Sociology and Anthropology
Theater
Zoology

Some courses are telecast from the Athens campus to the new campuses and their communities. These are viewed by our students at the same time they are viewed by students on the Athens campus. “Live” instruction is always provided in conjunction with television programming to maintain interaction between students and faculty.

UNIVERSITY COLLEGE—FRESHMAN STUDIES

All freshmen are first enrolled in the University College. This college is concerned with your progress during the first year and offers the opportunity to explore various fields of knowledge before specifying your major or area of concentration.

At the end of three quarters you may be advanced to the degree college (see page 23) of your choice if you have earned 45 quarter hours of appropriate credit and are a student in good standing.

ASSOCIATE IN ARTS DEGREE

If you do not intend to complete a four-year academic program, you may want to enroll in a two-year program which leads to an Associate in Arts degree. Curricula leading to this degree furnish a background for certain professional schools or for employment in a number of specialized fields. These include general business, preprofessional fields such as prepharmacy and premortuary science, recreation leadership, and other areas of specialty requiring a two-year program of general education.

ASSOCIATE DEGREE IN NURSING

Preparation for the field of nursing can now be obtained at both the Zanesville and the Portsmouth campuses. This two-year academic program combines both general and nursing education and leads to an Associate Degree in Nursing.
Enrollment in the program offers you the opportunity to become a professional nurse and the opportunity to take the professional nursing licensing examination for practice in Ohio as a registered nurse. As a nursing student, you will study the scientific principles and skills requisite to nursing care as well as the concepts of ethical responsibility to patients and the nursing profession.

The nursing program is open to both men and women who have been admitted to the University, although an interview with the director of the program is required.

Costs are comparable to costs in other University programs except for uniforms ($60, first quarter only) and professional liability insurance ($11 per year).

If you are interested in attending summer school, you should contact the director of the campus for further information.

**STUDENT ACTIVITIES AND PROGRAMS**

**ACTIVITIES**

The opportunity for our students to plan and participate in various campus activities and worthwhile community projects is readily available at Ohio University's five new campuses. Involvement in such activities is an important facet of a college education; but, of course, the extent of your involvement depends upon your time and interests.

Many new campus students participate in social clubs, academic honoraries, language clubs, informal discussion groups, student government groups, drama groups, or intramural athletics. Those who are journalistically inclined contribute to student newspapers since each new campus edits and produces its own. Studentmixers and discussion groups are regularly scheduledevents and provide an excellent opportunity to share common ideas and concerns and make new acquaintances.

In addition to the numerous campus activities, our students are involved in such community projects as fund-raising drives for local and national charities, "clean-up fix-up" campaigns, and special activities for children's homes. Some students have attended city council meetings and participated actively in discussions of local problems.

Students, faculty, and administrators plan campus activities to fit individual and community needs. All activities are coordinated on each campus by a director of student programs and a student activities board composed of interested students and faculty. Students who apply for admission to the Cutler Program must demonstrate special interests which the existing curricula in the various colleges and disciplines cannot easily satisfy. If accepted into the Cutler Program, the student may earn a baccalaureate degree by whatever combination of course work and independent study is acceptable to his adviser and the program's administrative committee.

Unlike the undergraduate colleges at Ohio University, the program does not have its own faculty but is an association of Cutler Fellows—special academic advisers appointed from the faculties of the other undergraduate colleges.

Application for admission to this program may be made during your freshman, sophomore, junior, and, in exceptional circumstances, senior year. Because the degree programs followed in the Cutler Program are highly individualized, early entry is advisable.

**SUMMER SCHOOL**

Approximately 30 class sections are offered at the Belmont County, Chillicothe, Lancaster, Portsmouth, and Zanesville campuses for one session (five weeks) each summer. Summer classes also are held at the Lockbourne Educational Center.

As a holder of the Associate in Arts degree and a career in either radio-technology or radio-television performance-production. The program, which is coordinated with laboratory learning experiences at Zanesville radio and television stations WHIZ-AM, FM, and TV, is designed to permit advancement to middle management positions in broadcasting and allied industries.

As a holder of the Associate in Arts degree in radio-television technology, you will be eligible to write the examination for a First Class FCC engineering license. Other career opportunities in the broadcasting field are almost limitless.

If, after two years, you feel you could or should continue with your studies, you may transfer to the main campus in Athens in order to complete the four-year baccalaureate program.

**CUTLER PROGRAM**

Individualized programs to meet the needs of the student with unusual qualifications or special interests are provided by the University.

Students who apply for admission to the Cutler Program must demonstrate special interests which the existing curricula in the various colleges and disciplines cannot easily satisfy. If accepted into the Cutler Program, the student may earn a baccalaureate degree by whatever combination of course work and independent study is acceptable to his adviser and the program's administrative committee.

Unlike the undergraduate colleges at Ohio University, the program does not have its own faculty but is an association of Cutler Fellows—special academic advisers appointed from the faculties of the other undergraduate colleges.

Application for admission to this program may be made during your freshman, sophomore, junior, and, in exceptional circumstances, senior year. Because the degree programs followed in the Cutler Program are highly individualized, early entry is advisable.

**ASSOCIATE DEGREE IN RADIO-TELEVISION**

The Ohio University campus at Zanesville now offers a new two-year program which prepares you for an Associate in Arts degree and a career in either radio-television technology or radio-television performance-production. The program, which is coordinated with laboratory learning experiences at Zanesville radio and television stations WHIZ-AM, FM, and TV, is designed to permit advancement to middle management positions in broadcasting and allied industries.

As a holder of the Associate in Arts degree in radio-television technology, you will be eligible to write the examination for a First Class FCC engineering license. Other career opportunities in the broadcasting field are almost limitless.

If, after two years, you feel you could or should continue with your studies, you may transfer to the main campus in Athens in order to complete the four-year baccalaureate program.
CULTURAL ENRICHMENT PROGRAM

A cultural enrichment program provides diverse cultural activities and entertainment for students on the new campuses. Each year a wide range of events is scheduled, including theater productions, lectures, concerts, and art exhibits.

Often the campuses schedule a full week of activities centering around one main event. Students and faculty take part in selecting and recommending all cultural activities.

In the performing arts our students have had the opportunity to see and hear Philippe Entremont, the internationally famous pianist; the Columbus Symphony Orchestra, the Indiana University Repertory Theatre Company, and a number of professional touring companies from New York.

Major speakers visiting the campuses have included F. Lee Bailey, noted criminal lawyer; Barry Goldwater, 1964 presidential candidate; Paul-Henri Spaak, first president of the UN’s General Assembly; U.S. Rep. Gerald R. Ford of Michigan, minority leader in the House of Representatives; Pearl S. Buck, author and Nobel Prize winner; Countess Alexandra Tolstoy, daughter of Leo Tolstoy; Marquis Childs, syndicated newspaper columnist; and U.S. Sen. William Proxmire of Wisconsin.

In addition, outstanding faculty from other universities and colleges as well as from Ohio University’s main campus visit the new campuses to lecture on their respective specialties.

FINANCES

COSTS

Your college education can be obtained at one of our campuses for less cost than at most universities. If you are within commuting distance, the only costs involved would be those for the comprehensive registration fee, books, and student health insurance. Students who live in approved housing within the community would, of course, incur room and board costs. The director of each campus can be contacted to provide up-to-date estimates of these costs in his respective community.

Estimated costs for Ohio* students attending our campuses are:

<table>
<thead>
<tr>
<th></th>
<th>Per Quarter</th>
<th>Per Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Comprehensive Registration Fee**</td>
<td>$180.00</td>
<td>$540.00</td>
</tr>
<tr>
<td>Books and Supplies</td>
<td>35.00</td>
<td>105.00</td>
</tr>
<tr>
<td>Student Health Insurance</td>
<td>29.00</td>
<td></td>
</tr>
</tbody>
</table>

If a student is a part-time student (taking from one to 11 credit hours), his tuition is $17 per credit hour.

Students carrying three hours or more of regular University course credit are enrolled in the low cost major medical health insurance plan unless comparable coverage is already maintained by the student and/or his family. The low fee for the plan is made possible because of group rates designed for Ohio University students. Moreover, the insurance plan pays in addition to any other health insurance a student may possess.

If you receive a scholarship for your first year of studies, you must maintain at least a 3.0 (B) cumulative average and resubmit an application each year to renew the scholarship award.

SCHOLARSHIPS—There are two types of scholarship awards: (1) President’s Honor Awards of up to $150 per year and (2) need scholarships, which usually pay three-fourths of tuition costs. President’s Honor Awards are granted to students who have attained high academic achievement, but who are unable to demonstrate a need for financial assistance. Need scholarships, however, are awarded to those students who have attained high academic achievement and who also are able to demonstrate financial need.

If you receive a scholarship for your first year of studies, you must maintain at least a 3.0 (B) cumulative average and resubmit an application each year to renew the scholarship award.

LOANS—The long-term loan most often applied for is the National Defense Student Loan. Under the loan program, students have a borrowing eligibility of $1,000 per year with repayment beginning one
year after a borrower ceases to pursue at least a half-
time course of study at an institution of higher edu-
cation and ending ten years thereafter.

One reason the National Defense loan is so popu-
lar with college students is that one-half or more of
the balance of the loan may be cancelled for full-time
teaching in a public or private nonprofit elementary
or secondary school or in an institution of higher edu-
cation. The normal rate of cancellation is ten per
cent per annum for each year of full-time teaching.
Fifteen per cent cancellations are permitted for teach-
ers employed in poverty districts designated by the

If you are in graduate school, military service,
or service with the Peace Corps or VISTA, repayment
of your loan can be extended.

Interest rates for the National Defense Student
Loans are established at three per cent per annum
on the unpaid balance.

Approval for the loans is given on the basis of
financial need, academic standing, and availabili-
ty of funds. Students who are not entering freshmen
must have at least a 2.0 (C) accumulative aver-
age to be eligible for a loan. Reapplication is neces-
sary each year.

COLLEGE WORK-STUDY PROGRAM—Employ-
ment opportunities are available throughout south-
eastern Ohio on a part-time basis during the school
year and full-time (40 hours per week) during summer
months through the College Work-Study Program. The
majority of jobs are assigned prior to the begin-
ing of the fall quarter on a yearly basis although some op-
portunities arise throughout each academic year.

EDUCATIONAL OPPORTUNITY GRANTS—Stu-
dents awarded Educational Opportunity Grants are
not required to repay the funds they receive. The
grants are awarded to exceptionally needy stu-
dents and range from $200 to $800 per year with a
matching amount provided by the University through
scholarships and/or National Defense Loans.

Students who are not entering freshmen must main-
tain at least a 2.0 (C) accumulative average to receive
such a grant. To continue on an Educational Oppor-
tunity Grant, the recipient must be able to demon-
strate continued need for financial assistance and must re-
apply each year.

Students who wish to be considered for an Educa-
tional Opportunity Grant should submit applications
for both a scholarship and a National Defense Student
Loan. When this is done, they are automatically con-
sidered for a grant.

GENERAL FINANCIAL AID INFORMATION— All
students applying for any type of financial aid, exclud-
ing the President's Honor Award, must submit a Parents'
Confidential Financial Statement to the College Schol-
arship Service each year at least one month prior to the
deadline designated for financial aid application. THE
PARENTS' CONFIDENTIAL FINANCIAL STATEMENT IS
NOT AN APPLICATION FOR FINANCIAL AID.

The Parents' Confidential Financial Statement form
may be obtained from your high school counselor or
the University Student Financial Aid Office.

Incoming freshmen may obtain student financial
aids applications from November 15 through February
15 of their senior year in high school. New applications
should be submitted before March 1 of the student's
senior year in high school. Applications for financial aid
for upperclassmen may be obtained from March 1
through April 15. Upperclassmen should submit new or
renewal applications before June 1 for the next aca-
demic year. Applications received after the deadline
dates will be placed on a waiting list for later
consideration.

If more information and/or applications are de-
sired, you should write to the Office of Student Finan-
cial Aids, Ohio University, Athens, Ohio 45701.

ADMISSIONS AND RELATED INFORMATION

WHEN TO APPLY

You may apply for admission to undergraduate study at any of our campuses any time following your junior year in high school. The application deadline for the fall quarter is the preceding August 15. Ap-
lications for other terms normally are accepted up to a
month before classes begin.

ADMISSIONS REQUIREMENTS

FRESHMAN APPLICANT—If you are a high school
graduating senior who can commute to one of our Ohio University campuses, you will be admitted as a
regular degree-seeking student. If you do not live within commuting distance of a campus, you should contact the Admissions Office to determine your eligibility to meet admission requirements.

Specific high school courses are not required for admission to undergraduate study. However, the Uni-
versity will expect students to complete the following distri-
bution of subject matter before you can be advanced to a
degree-granting college.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>3-4 units</td>
</tr>
<tr>
<td>Foreign Language</td>
<td>2 units</td>

<tr>
<td>Laboratory Science</td>
<td>2 units</td>
</tr>
<tr>
<td>Math and/or Plane Geometry</td>
<td>2 units</td>
</tr>
<tr>
<td>Speech</td>
<td>1 unit</td>
</tr>
</tbody>
</table>

If you are deficient in any of the above, it is ex-

pected that you will be able to complete these necessary
courses at the campus where you enroll.

TRANSFER APPLICANT—An accumulative grade
average of 2.0 (on a scale in which "A" is 4) is normally
required of transfer applicants who are residents of
Ohio. Nonresidents are encouraged to contact the
Admissions Office to determine their ability to meet
admission requirements.

SPECIAL STUDENT—Persons desiring to seek a de-
gree but unable to take a full-time load may still obtain
regular student status by applying as freshmen or tran-
sfer students.

MEDICAL REQUIREMENTS
For the protection of our students' health, a med-
ical history and physical examination report from the
family physician is required of all students who are tak-
ing University courses for credit. This report includes
verification that you have received a smallpox vacci-
nation within the past five years. The medical report
form will be forwarded to you after you have been
granted provisional admission.
The University provides a low-cost medical insur-
ance plan (see page 17).

APPLICATION PROCEDURES
Application materials for admission to the new
campuses may be obtained from the campus director
or the Office of Admissions, Ohio University, Athens,
Ohio 45701.

APPLICATIONS

FRESHMAN APPLICANT—If you (1) have or soon
will have a secondary school diploma and (2) have never
been enrolled in full-time study at another institution of
post-high school work and have not attempted as many
as 16 quarter hours (or 12 semester hours) of course
work and grades, including rank in class; and (3)
required SAT test results.

In order to fulfill the test requirement, it is nec-
essary that you take the Scholastic Aptitude Test (SAT).

We recommend that you take this test during the fall
testing period of your senior year although any time is
acceptable. The director of the campus nearest you or
your high school counselor or principal usually has
information about when and where these tests can be
taken and how to register for them.

After your application is completed it should be
returned to the Admissions Office. Receipt of your ap-
lication will be acknowledged from that office.

Once the necessary information is filed, the appli-
cation is processed. If you are granted provisional ad-
mission, you will receive a medical report form and a
form for submitting your school grades; if these were not included on your initial transcript.

Once these documents are completed and re-
turned, final approval for registration is granted. Your
credentials are then forwarded to the dean of Univer-
sity College and to the director of the campus for which
you are enrolling.

Upon receipt of your credentials, the campus di-
cuba director will invite you to participate in an orientation
program. This program includes a review of the ad-
mission requirements of the University and its objectives, a briefing on the
educational programs at the University, and prepara-
tion of a class schedule.

TRANSFER APPLICANT—If you have been regis-
tered for full-time study or have attempted at least 16
quarter hours (or 12 semester hours) as a part-time stu-
dent at another institution of higher education, you
should file a transfer application.

As a transfer applicant you would file (1) an appli-
cation form accompanied by a $20 nonrefundable fee
and (2) a transcript from each post-secondary institution in
which you have registered as well as a high school transcript.

If you have earned fewer than 16 quarter hours
(or 12 semester hours), you should submit test results.

Once provisional admission is granted, you will
receive a medical report form to complete and return
with any supplemental transcripts required prior to final
registration.

SPECIAL STUDENT—You may be cleared for regis-
tration as a special student upon completion of a special
student application and filing of a statement of good
standing or an official transcript from the school(s)
previously attended. The statement or transcript must
include your grade point average on all credits
attempted. As a special student, you may carry as many
as 11 credit hours of courses per quarter.

Students who have attended the University encour-
gages student inquiries. Please feel free to contact this
office if you have any questions.

CHANGE OF CAMPUS
After completing their freshman and sophomore
years at one of the new campuses, most students choose to relocate to the Athens campus to complete require-
ments for a four-year degree. Students who do this are
not considered transfer students. They merely move
from one campus to another.

If at a later date you find that you are interested in
making such a move, you should contact the Director of
Registration, Ohio University, Athens, Ohio 45701.

Applications should be made at least one month prior to
the beginning of the term for which you wish to change campuses. If you are relocating to the Athens
campus for the fall session and wish to live in Univer-
sity housing, the relocation form must be submitted by
May 20.

RESIDENCE REQUIREMENT
In order to obtain a bachelor's degree from the
University, all students are normally required to com-
plete a minimum of one quarter (15 hours credit) at
the Athens campus. However, under special circum-
cstances, this requirement may be waived at the dis-
ccretion of the academic dean.

The residence requirement may be completed at
any time; it need not be during the final weeks prior
to receiving a degree. Enrollment for student teach-
ing at the new campuses gives credit toward Athens
residency.

There is no residence requirement for the associ-
ate degree and all the academic requirements for this
degree may be completed on the new campuses.

Part-time students earn residence credit equiva-
 lent to the number of credit hours they complete.

Credit earned in off-campus continuing educa-
tion and correspondence study does not count toward
fulfillment of the residence requirement.
EXTENSION DIVISION

CONTINUING EDUCATION
The Office of Continuing Education is a major means of reaching and serving the educational needs of our new campus communities. A variety of special interest programs and courses is offered in the communities in which the new campuses are located, at the Athens campus, and at other locations in southeastern Ohio.

Through this office, we are able to supplement regular University credit programs as well as offer remedial, precollege, and noncredit courses. Many programs in professional and technical areas may be designed to meet the specific needs of a community's business, industry, or educational and professional groups.

WORKSHOPS, CONFERENCES, AND INSTITUTES
A comprehensive workshops, conferences, and institutes program is being extended to the new campus communities as rapidly as their individual needs indicate. Program variety is unlimited and has ranged from a one-day income tax seminar to an institute of several weeks' duration.

INDEPENDENT STUDY THROUGH CORRESPONDENCE
Correspondence courses at the University level are available to those who wish to continue their education, for credit or on a noncredit basis, at times when they are unable to be present at regularly scheduled classes. Approximately 150 courses are offered by Ohio University faculty members through independent correspondence study. These courses are drawn from curricula of the baccalaureate degree-granting colleges.

OFF-CAMPUS ACADEMIC PROGRAMS

ADMINISTRATION
The Office of Off-Campus Academic Programs of Ohio University serves to provide the University with one central administration for dealing with the many academically related programs of our new campuses, academic centers, and continuing education. Instead of dividing administrative responsibilities among the several degree colleges of the University, and rather than duplicate several smaller versions of these colleges on each of the campuses, the University has chosen to utilize the Office of Off-Campus Academic Programs as the single coordinating unit of the University and gives it responsibility for administration of the campuses and the Extension Division. The Dean of Off-Campus Academic Programs and his staff have close working relationships with the other academic deans and department chairmen for the enrollment of faculty, design of courses, and the acquisition of appropriate laboratory and library material. This administrative arrangement permits a small, closely knit group of educators to acquire an intimate knowledge of the problems and potentials of the new campuses while maintaining and enhancing the University's academic standards on all of the University's campuses.

Each of the campuses is administered by a director. These men are the University's chief representatives on the campuses and in the communities. They are appointed on the basis of their perception of (and support for) the University's objectives, their administrative and teaching experience, and their desire to make higher education more accessible to qualified students.

THE UNIVERSITY
A coeducational, state-assisted institution, Ohio University offers undergraduate study in approximately 200 areas, master's degree work in 44 areas, and 15 doctoral programs. Its degree-granting colleges are Arts and Sciences, Business Administration, Communication, Education, Engineering and Technology, Fine Arts, Graduate, and University College. The schools are Accounting, Architecture, Design and Planning; Art; Health, Physical Education and Recreation; Hearing and Speech Sciences; Home Economics; Interpersonal Communication; Journalism; Music; Radio-Television; and Theater.

All campuses operate on a quarterly calendar, which consists of four terms of 10-11 weeks' duration. The summer quarter has two five-week sessions. Ohio University is accredited by the North Central Association of Colleges and Secondary Schools and by many professional associations identified with various academic areas of the University. The University also holds membership in leading state and national professional associations. All off-campus programs, including the five new campuses, the academic center, and the educational center, share accreditation and memberships with the main campus.
WHERE TO WRITE
For additional information, you should write to the following:

NEW CAMPUSES
Ohio University—Belmont County
Dr. E. R. Bovenizer, Director
Wilson Shannon Hall
National Road West
St. Clairsville, Ohio 43950
Phone: Area Code 614/695-1720

Ohio University—Chillicothe
Dr. Edwin Hunt Badger, Director
Bennett Hall
571 West Fifth Street
Chillicothe, Ohio 45601
Phone: Area Code 614/775-9500

Ohio University—Lancaster
Dr. Lowell LeClair, Director
1000 Lancaster-Newark Road, N.E.
Lancaster, Ohio 43130
Phone: Area Code 614/534-6711

Ohio University—Portsmouth
Dr. William S. Westbrook, Director
Henry Massie Hall
940 Second Street
Portsmouth, Ohio 45662
Phone: Area Code 614/354-3205

Ohio University—Zanesville
Mr. Roy E. Gillespie, Director
Henry Elson Hall
3425 Newark Road
Zanesville, Ohio 43701
Phone: Area Code 614/453-0762

EDUCATIONAL CENTERS
Ohio University—Ironton
Mr. L. Wellman Bowman, Director
Ironton High School
Ironton, Ohio 45638
Phone: Area Code 614/532-9021
